

Masterlink is committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection.

We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles.

However, we recognise our obligations in complying with new guidelines set out by GDPR.

We already have a consistent level of data protection and security across our organisation and are dedicated to safeguarding the personal information under our remit and in continuing to develop a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for GDPR.

Our ongoing adherence to GDPR compliance includes the development and implementation of data protection procedures, controls and measures to ensure maximum and ongoing compliance.

OUR COMMITMENT
